MEMORANDUM FOR THE RECORD

Morning Meeting of 14 July 1965

25X1

25X1

25X1

25X1

A briefing updating the DCI's earlier briefing covered Vietnam and Ecuador.

DDI showed the DCI a memo dealing with OCI realignment to provide the support of some people to the Vietnam Task Force. It was noted that will be returning from the field soon and plans are to place him on the Task Force.

DDI noted the successful work being done by NPIC and a CIA-DIA panel studying the Soviet ground forces. Photographic exploitation has been of significant help in providing better information. Kent noted that it was equally essential to apply this technique to ChiCom ground forces.

DDI tabled a memo on the status of UAR-Yemen relations.

DDI also gave DCI an ORR memo setting forth implications for the Soviet economy caused by developments in the building materials industry.

DDI reported on the query from the White House Staff concerning international sanctions on shipping to North Vietnam. It was agreed that it is helpful to the meeting to know of all such requests.

Kent noted that work had been completed on the memo of conversation during the recent visit by Clark Clifford and Coyne. Kent observed that there were two points worth emphasizing to Clifford: one, that key questions are really imponderables and can only be answered with judgments, not concrete facts; two, the Sino-Soviet split is not a hoax. DCI reminded that it was necessary to keep the subject of the Sino-Soviet split under review. DDI said he would forward results of a study of this matter made about these menths age. DCI also noted the weight of persuasive evidence from as to the extent and nature of the split.

		reported that the SIGINT Committee last night had compl	eted
k p	ackage for	USIB consideration dealing with the Bundy memo on	25X ²

The State of

Houston reported that a retro-active provision of administrative sick leave will be made part of the amendments to the Foreign Service Act.

Houston noted that there is little prospect of a meeting with Representative Rivers this week.

Bross reported that alternative draft NRO agreements are ready for discussion with DCI and DDCI today.

DDS&T tabled a memo and described the source of performance of a Soviet aircraft believed to be the E-266, which is believed to be involved in the claim to the world speed record recently submitted by the Soviets.

current dengarous and explosive situation in Equator

current dangerous and explosive situation in Ecuador, particularly in Guayaquil.

25X1

Executive Director noted a commendatory letter from the USMA

DDCI reported that he had discussed the information with 25X1 Secretary Vance yesterday.

DCI asked when we had last overflown Hanoi and wanted to know the current status of the SAM sites there. He continues to believe that there is a purposeful intent to phase the construction so that all sites will be operational simultaneously.
